

VETSTAR[®] OSTEOPLUS

Calcium – Phosphorus – Vitamin D₃

Analysis (per tab)	
Analytical constituents	
Calcium (Ca)	600 mg
Phosphorus (P)	465 mg
Feed additives: Vitamins	
Vitamin D ₃	400 I.U.

Composition: minerals, dextrose, milk and milk derivatives, derivatives of vegetable origin, maize starch, yeast extract.

VETSTAR[®] osteoplus is a mineral complementary feed, with calcium and phosphorus, for dogs and cats. It provides calcium and phosphorus in the right analogy, combined with vitamin D₃. It is extremely tasteful.

VETSTAR[®] osteoplus can be administered in puppies and kittens, in pregnant animals and in animals during lactation, in fast growing breeds of dogs and in general to organisms with increased needs of calcium and phosphorus. It can also be administered in dogs and cats of every age, sex and weight.

INSTRUCTIONS FOR USE:

Dogs: 1 tab per 10 kg body weight daily.

Cats: 1/4-1/2 of the tab daily.

Tabs are administered directly by the hand in the animal's mouth or mixed with the feed. The dosage can be modified according to the advice of your vet.

STORAGE: Store in a dry place, protected from light and at a temperature not exceeding 25°C.

KEEP OUT OF THE REACH AND SIGHT OF CHILDREN

Package: Container of 30 & 70 tablets
